EXPERIENCE

Career Karma - *Technical Writer*

July 2020 - Present

- Wrote several articles on fundamental concepts of front-end technologies and git, helping the SEO rank of the publishing to continuously rise.

Microverse - *Student Mentor*

Feb 2020 - Present

- Helped one of my two mentees live up to the saying "The student surpasses the teacher" by distilling what I learned in a more understandable and concise way.
- Helping students daily with both technical and communications issues such as communicating with their coding partner, their stand-up team, anyone from the school or otherwise.

Restaurant Studnja, Glozan - *Head Chef*

Jan 2019 - Jan 2020

- Grew monthly recurring revenue by 130% during tenure by continuously refining the menu in accordance with sales metrics. The menu also led to multiple features in local magazines.
- Successfully led a team of 6, trained new staff, organized workflow.
- Kept waste under 5% during tenure, maintained a positive atmosphere, sourced top-quality local goods.

EDUCATION

Microverse.org - *Full-Stack Web Developer*

Jan 2020 - present

- Spent 1500+ hours developing projects through pair programming with partners from all over the world.
- Solved algorithm challenges daily, developed core soft skills, and learnt coding best practices through rigorous code reviews.
- Ruby, Ruby on Rails, JavaScript, React & Redux, SQL, CSS3, HTML5.

Svetozar Miletic School of Economics and Hospitality - *Cooking Degree*

Sep 2009 - May 2012
